Special Issue: Salmonid Smoltification VI

The importance of smolt development to salmon conservation, culture, and management: perspectives from the 6th International Workshop on Salmonid Smoltification
S.O. Stefansson (Bergen, Norway), P. McGinnity (Furnace, Ireland), B.T. Björnsson (Göteborg, Sweden), C.B. Schreck (Corvallis, OR, USA) and S.D. McCormick (Turners Falls, MA, USA) ... 1

Interactive effects of cortisol treatment and ambient seawater challenge on gill Na^+,K^+-ATPase and CFTR expression in two strains of Atlantic salmon smolts
T.D. Singer (Waterloo, Ontario, Canada), B. Finstad (Trondheim, Norway), S.D. McCormick (Turners Falls, MA, USA), S.B. Wiseman, P.M. Schulte and R. Scott McKinley (Waterloo, Ontario, Canada) 15

Osmoregulation and growth in a wild and a selected strain of Atlantic salmon smolts on two photoperiod regimes
S.O. Handeland (Bergen, Norway), M. Porter (Scotland, UK), B.T. Björnsson (Göteborg, Sweden) and S.O. Stefansson (Bergen, Norway) ... 29

Endocrine and physiological changes in Atlantic salmon smolts following hatchery release
S.D. McCormick, M.F. O'Dea, A.M. Moeckel (Turners Falls, MA, USA) and B.T. Björnsson (Göteborg (Göteborg, Sweden) ... 45

Neural circuits and their structural and chemical reorganization in the light–brain–pituitary axis during parr–smolt transformation in salmon
L.O.E. Ebbesson (Bergen, Norway; Lund, Sweden; Fairbanks, AK, USA), P. Ekström (Lund, Sweden), S.O.E. Ebbesson (Charlottesville, VA, USA), S.O. Stefansson (Bergen, Norway) and B. Holmqvist (Lund, Sweden) ... 59

Smolting in anadromous and landlocked strains of Atlantic salmon (*Salmo salar*)
T.O. Nilsen, L.O.E. Ebbesson and S.O. Stefansson (Bergen, Norway) ... 71

Environmental and endocrine control of gill corticosteroid receptor number and affinity in Atlantic salmon (*Salmo salar*) during smolting
J.M. Shrimpton and S.D. McCormick (Turners Falls, Amherst, MA, USA) ... 83

Enhanced smolt characteristics of steelhead trout exposed to alternative hatchery conditions during the final months of rearing
G.B. Zydlewski (Longview, WA, USA), J.S. Foott, K. Nichols, S. Hamelberg (Anderson, CA, USA), J. Zydlewski (Vancouver, WA, USA) and B.T. Björnsson (Göteborg, Sweden) ... 101

Low concentrations of inorganic monomeric aluminum impair physiological status and marine survival of Atlantic salmon
F. Kroglund (Grimstad, Norway) and B. Finstad (Trondheim, Norway) ... 119

Development of seawater tolerance and concurrent hormonal changes in fed and fasted Arctic charr at two temperature regimes
Ø. Aas-Hansen, H.K. Johnsen (Tromsø, Norway), M.M. Vijayan (Waterloo, Ontario, Canada) and E.H. Jørgensen (Tromsø, Norway) ... 135

Life history plasticity in chinook salmon: relation of size and growth rate to autumnal smolting
B.R. Beckman, D.A. Larsen and W.W. Dickhoff (Seattle, WA, USA) ... 149

Osmoregulation, feed intake, growth and growth hormone levels in 0+ Atlantic salmon (*Salmo salar* L.) transferred to seawater at different stages of smolt development
A.M. Arnesen, H. Toften (Tromsø, Norway), T. Agustsson (Göteborg, Sweden; Reykjavik, Iceland), S.O. Stefansson, S.O. Handeland (Bergen, Norway) and B.T. Björnsson (Göteborg, Sweden) 167

Effect of stocking time on yield and location of recapture in two forms of brown trout (*Salmo trutta*) when stocked in respect to migration activity
J. Pirhonen (Jyväskylä, Finland), P. Valkeajärvi (Valkola, Finland), J.E. Thorpe (Scotland, UK) and A. Soivio (Helsinki, Finland) 189

Stress-reducing methods for releases of Atlantic salmon (*Salmo salar*) smolts in Norway
B. Finstad, M. Iversen and R. Sandodden (Trondheim, Norway) 203

Growth in stream-stocked juvenile hatchery-reared coastal cutthroat trout (*Oncorhynchus clarki clarki*) and the implications for wild populations
D.J. Bates (Sechelt, BC, Canada) and B.A. McKeown (Burnaby, BC, Canada) 215

Pituitary gene expression of somatolactin, prolactin, and growth hormone during Atlantic salmon parr–smolt transformation
T. Ágústsson (Göteborg, Sweden; Reykjavik, Iceland), K. Sundell (Göteborg, Sweden), T. Sakamoto, M. Ando (Higashihiroshima, Japan) and B.T. Björnsson (Göteborg, Sweden) 229

Photoperiodic effects on precocious maturation, growth and smoltification in Atlantic salmon, *Salmo salar*
I.K. Berrill, M.J.R. Porter (Stirling, UK), A. Smart (Inverness-shire, UK), D. Mitchell (Tasmania, Australia) and N.R. Bromage (Stirling, UK) 239

The effects of 4-nonylphenol and atrazine on Atlantic salmon (*Salmo salar* L) smolts
A. Moore (Suffolk, UK), A.P. Scott (Dorset, UK), N. Lower (Suffolk, UK), I. Katsiadaki (Dorset, UK) and L. Greenwood (Suffolk, UK) 253

Intestinal transport mechanisms and plasma cortisol levels during normal and out-of-season parr–smolt transformation of Atlantic salmon, *Salmo salar*
K. Sundell, F. Jutfelt (Göteborg, Sweden), T. Ágústsson (Göteborg, Sweden; Reykjavik, Iceland), R.-E. Olsen (Matredal, Norway), E. Sandblom (Göteborg, Sweden), T. Hansen (Matredal, Norway) and B.T. Björnsson (Göteborg, Sweden) 265

A biochemical study of mucus lysozyme, proteins and plasma thyroxine of Atlantic salmon (*Salmo salar*) during smoltification
M.S. Fagan, N. O'Byrne-Ring, R. Ryan (Dublin, Ireland), D. Cotter, K. Whelan (Newport Co., Ireland) and U. Mac Evilly (Dublin, Ireland) 287

An ecophysiological comparison of wild and hatchery-raised Atlantic salmon (*Salmo salar* L.) smolts from the Burrishoole system, western Ireland
W.R. Poole (Newport, Co., Ireland), D.T. Nolan and T. Wevers (Nijmegen, The Netherlands) M. Dillane, D. Cotter (Newport, Co., Ireland) and O. Tully (Dublin, Ireland) 301

Function and trigger of thyroxine surge in migrating chum salmon *Oncorhynchus keta* fry
M. Iwata, H. Tsuboi, T. Yamashita, A. Amemiya, H. Yamada and H. Chiba (Iwate, Japan) 315

Effects of bacterial kidney disease on saltwater preference of juvenile spring chinook salmon, *Oncorhynchus tshawytscha*
C. Seals Price and C.B. Schreck (Corvallis, OR, USA) 331
